## News From Your TOWN HALL

Despite war conditions, scarcity of materials, etc., colored subdivisions seem to be a bit bullish on the local market.

C. A. Bailey and Leo J. Rader each had a negro subdivision plat okayed by the Commission Wednesday night.

Reports are that a great number of the lots are already sold in both subdivisions, and at least one other, if not two, additions will be seeking the okay of the Commission right soon.

The Commission is receiving regularly applications for building and repairs under the \$200 mark.

The Water Works has reached its maximum capacity of pumping—500 gallons per minute, 30,000 gallons per hour and with a 24-hour schedule, which is what it is doing at present, gives 720,000 gallons per day. To go on, this makes 21,600,000 per month.

This is being done on a 7,000,000 capacity plant.

Clarence Throp, the manager, says that the pump is being obtained so that more water can be furnished if necessary.

Mr. Williams, who runs the office of the water works, informs us that better than 700 meters are in.

The Town has a garbage dumping ground and packing houses are welcome to use it.

There is a special spot where the Town dumps its garbage which is as it must be, and on the road leading to this special place a chain has been put up across the road and locked.

Recently some driver in a hurry when he couldn't get the chain off just dumped his loads right in the road, which made it necessary to take prisoners there and clean the roadway before the Town's trucks could get in.

Now, that's not exactly cricket, as the Englishman would say, and the Town wants garbage trucks to dump their stuff at the proper place.

So the next one who does it is less likely to face the Judge.

## Scrap Iron Is Needed By Our Government

Prof. Hobson wants anyone who knows of the whereabouts of any old barges, boilers, or, in fact, any old scrap iron scattered about to phone him.

The collection of scrap iron has been given to the Professor and he has enlisted the help of the boys in the High School to help him spot it.

Any scrap too heavy to move will be cut with torches either by local men or the Army Engineers and transported to be provided to get it to the railroads.

The proceeds from the sale of the scrap collected here will go to the school fund for the library or the athletic fund.

## Blandings Gets 27 With Seven Fathers

Seven of the 27 white men leaving Belle Glade Thursday morning for Blandings are fathers. One is a pre-pearl Harbor father.

Prof. Caudhill of Pahokee, Robert Berry and Eugene Harris are the volunteers in the list.

## FISH AND POULTRY RETAIL STORE HERE

Mr. and Mrs. J. S. Ellis have come to Belle Glade to make their home and will operate a Fish and Poultry retail business here.

Mr. Ellis, formerly with the Flamingo Poultry Co., has had 25 years experience in the business and Mrs. Ellis has a wide experience in the retail grocery business.

Due to the scarcity of materials and the fact that some tenants haven't yet moved the complete remodeling of the place will take some time, but it is planned to install a modern plant for the service they offer.

The store is on Avenue A at the corner of fourth street across the street from Royal's.

## DISTRICT GOVERNOR OF ROTARY HERE

Harry M. Smith, District Governor of Rotary International, made his official visit to the Pahokee and Belle Glade Clubs at a joint dinner in Pahokee on Thursday at noon.

After pointing out that Rotary is growing despite the loss of members in occupied territories, Mr. Smith emphasized the fact that 59 new clubs have been inaugurated in Spanish speaking countries of the Americas, and that in England 49 new clubs have been installed.

Three clubs have been reopened in Europe since the war has been chased out.

Mr. Smith held a meeting with Committee Chairmen and officers of the Pahokee and Belle Glade clubs after the dinner and the same Thursday night with the Belle Glade Club.

## Breger Attends Legion Conference

Commander Breger of the Legion reported Tuesday night at his attendance at the fall conference of the State organization at Winter Haven on Sunday.

The representative, officially of Boy State, and a request for renewed activities in all boys and girls work of the various divisions was effected.

In a talk by the National Chairman on Veterans of the Legion, he gave indication that he was instructed to high pressure boys returning from the present war to join the Legion.

Particular stress was laid on the need for the assistance in whatever manner possible for the boy in service.

## No Wooden Containers For Our Spuds Says War Production Board

The War Production Board has said "No wooden containers" for the shipping of potatoes, or a great majority of them, will have to be done up in bags, which means they can't be sold in the open market.

Pete Lins, Chairman of the Spud Committee of the Florida Vegetable Growers Association, is going to Washington to argue with the brass hats and point out to them that Glades potatoes have a lot of water in them and must be packed in crates so that full ventilation to carry. Then too, they can't ship what much sticks to the potato in the field, so they must be washed prior to shipment.

If the order is not modified, as requested, they will be cutting and gnawing of teeth by those who have already planted, and those who threaten not to plant.

## Red Cross Volunteer Service Club Thence

Mrs. Grace Wise, executive secretary of the Palm Beach County Chapter American Red Cross, was the principal speaker at the regular meeting of the Woman's Club Wednesday afternoon and she told of the different volunteer services of the Red Cross work and the urgent need of the organization of Nurses Aid, Staff Assistants and other units not yet operating in Belle Glade area. Mrs. Wise also gave a brief review of the history of Red Cross from the time it was organized in Switzerland, through the Palm Beach County Chapter organization.

She pointed out that all funds of the Red Cross are donated and no federal help is given. The books are audited by the War Department and a large (Continued on page 4)

## We Will Fight Our Country's Battles

This Marine's 168th year was another year of action.

Guadalcanal, Munda, Enogai Inlet, Funafuti, Rendova, Arundel, Vella Lavella, Kolombangara—these are a few of the tongue-twisting names which attest to Marine action since the corps' last birthday. Much Marine action during the past year has not yet been officially revealed.

## Rifle Club Classes Will Begin Sunday The 7th At Nine

Citizens of the Belle Glade area anticipating military or armed militia service are to be given an opportunity to receive rifle marksmanship training under a nation-wide program sponsored by the National Rifle Association with the cooperation of the War Department. It was announced today by J. K. Baker, President of the Belle Glade Rifle and Pistol Club here.

Official sanction of the school has been given by the National Rifle Association, Baker said, and preparations already are under way for the opening of classes by Nov. 7, 1943. The instruction methods and equipment to be used by the local club will follow closely those recommended by the NRA for all of the Small Arms Firing Schools conducted by the Army under its direction and are in line with the small arms training methods of the Army and Marine Corps.

Local club officials disclosed that their course also coincides with that of the NRA to the extent that it will train its men to be instructors in addition to giving them fundamental marksmanship training for themselves.

The school will be conducted with military type .22 caliber rifles using ammunition released for this purpose by the Government. This type of arm being used for basic training by all the services and that the fundamental

## Annual Homecoming At South Bay Church

The First Baptist church of South Bay conducted its annual homecoming services at the church on Sunday in an all day meeting with a basket dinner on the church lawn at noon.

Rev. W. H. Wilson, former pastor, presented the address at the regular morning service. Dr. C. H. Bolton, executive secretary of the Florida Mission Board, gave the dedication sermon at the afternoon service. M. D. Hardy presented a short history of the church and Rev. J. E. Dillard of Belle Glade pronounced the closing prayer and benediction.

The regular Baptist Training Union service was held in the evening followed by worship service at which time the speaker was Gainer E. D. Van, Secretary of the Baptist Union of Georgia. The pastor, Rev. F. W. Campbell, called attention to the anniversary of the year. Two revivals were conducted, one by Rev. J. T. Allen of Palatka Heights Baptist church and one by Rev. A. Sawyer of Cocoa. Several Training Schools were conducted, 80 Sunday School and 147 Training Union Awards were made.

Membership is now 125 with 79 resident members out of which 39 are active. Thirty-nine additional members were taken in during the year, 16 by baptism and 23 by letter.

## Important Meeting

An important meeting will be held at the Community Methodist church Monday night to organize the Cub Scouts and all mothers interested are urged to be there at 8 o'clock.

## Pickins Woodward Reported Improving

Word has been received here from Mrs. Abbie Woodward in Orlando that her son, Pickens, has now passed the crisis and is reported by physicians at the hospital there, to have a good chance of recovery.

It was first thought that he had developed tuberculosis, but X-ray pictures now show that an abscess on the lung has caused his trouble.

## Service Men who FIGHT and WRITE

I feel sort of homesick and decided to let Belle Glade know we were thinking about it. I only lived there two years but intend to make it my home when I get out of the Navy.

I lived with my parents, Mr. and Mrs. L. T. Allen at Camp Osceola, and was employed by Lawrence Hughes before entering the service. I wish I was there now hearing those Waco whistles during the last six weeks with a load of dust. Give my regards to all. L. T. Allen

CLARENCE KIDDER  
Clarence Kidder is reporting for duty at Chapel Hill, N. C., at the State University where he will receive eight months training as a V-12 student. Last June he took the tests of the Naval Aviation Selection Board in Atlanta, passing the V-12 and V-5 tests and was the only applicant accepted out of twenty students.

## Home Demonstration Council Meets

The County Council meeting of the Home Demonstration Club was held at Norton's Art Gallery in West Palm Beach with Mrs. Joe Freeland presiding. The program for the year was discussed and it was decided to devote considerable time to food conservation.

Mrs. A. R. Shields, interior decorator for Cater's Furniture Store, was in charge of the program and gave many useful suggestions on color schemes and arrangement. A tour of the Art Gallery was made.

Others who went from Belle Glade were Mrs. Thomas Breger, Belle Glade president, Mrs. Hugh Breger, Mrs. R. S. Elder, Mrs. Tharold Neilson, Mrs. William Elder, Mrs. B. Q. Waddell, Mrs. Howard Haney, Mrs. Walters Hickey, and Mrs. G. R. Ganos.

## LADIES DAY AT GOLF CLUB

An "all day" doing with extra help was given by the ladies of the Country Club of the Brevard Glades today.

Several ladies will bring component parts of a meal and the conglomerate collection will provide dinner at noon. Those who do not wish to be matched up, and tournaments are arranged for the ladies entertainment.

It is expected during the day that the ladies will appoint a Ladies Committee to work with the Board of Directors of the Club to suggest and direct ladies activities.

## Rams Play Lake Worth Tonight, Pahokee Next Friday There

The Rams will play the Lake Worth team at Lake Worth on Friday night.

Lake Worth has held Ft. Lauderdale to a 13 to 7 score, but Delray has been a much better team than ours, but reports are that Cherry and Cromatic will be in there, and good fight will be put up by the local boys.

Cromatic and Cherry probably spelled the difference between the Rams and the local boys. A break play where Stuart broke down after the Rams had held them for downs almost on the goal line, making a final score 13 to 7.

On next Friday night Belle Glade will take on Pahokee at Pahokee and the old rivalry club to bring some good football. Both teams have improved greatly and will put out their best.

## Roscoe Harris Home On Leave

Roscoe Harris, Jr., enlisted in the Air Corps last March. While awaiting his call and after he finished High School, he went to Georgia Tech where he has been studying subjects which he will use in the Army work.

On the military side Roscoe was second in command of the honor platoon, which is okay for a country boy, because Tech has a high military standing with the Army.

**Clean Own House First**  
The most popular political pastime today is planning a new postwar world.

But before the United States can take any great part in such a world, it will have to set its own in order.

Large, continuing production is the only basis for financing our government and maintaining adequate living standards and a feeling of personal security.

In the United States, under private enterprise system, living standards reached a world peak and provided real independence and security for a greater population than in other countries.

So, while planning the postwar world, our planners might as well get down to earth and consider practical plans for encouraging expansion of private enterprise at home.

Only a policy of moderate taxation after the war will encourage individual initiative. Exorbitant taxes add to the price of goods; depress employment and retard investment and risk taking.

"Moderate business taxes," says Harley L. Lutz, professor of public finance, Princeton University, in The Tax Review, "that would release the full driving power of production at adequate wages and profits, mean that as soon as the war is over the excess profits tax and the surtax should be repealed, the normal rate should be reduced to some point within the range applied from 1918 to 1932. In no case should the rate exceed 20 per cent."

**Will Regulators Cause Oil Shortage?**

The Petroleum Industry War Council has passed a resolution calling public attention to the critical petroleum situation in the United States. Commenting on the resolution, William R. Boyd, Jr., Chairman of the Council, says: "... Unless some early action is taken to remedy the situation, we must ultimately face further restrictions, even for essential civilian and industrial consumption."

The resolution places blame for declining productive capacity on "an arbitrary and inadequate price ceiling which has been established and maintained, contrary to the considered judgement of the petroleum industry, and of the Federal Administrator for War, to whom the President delegated the responsibility of providing adequate petroleum products."

As early as February, 1942, the petroleum industry pointed out to the Petroleum Administrator that price ceilings on crude oil were inadequate to stimulate necessary wildcatting to keep the nation's reserves, in the face of increased labor, material and taxation costs.

For mthat time on, the industry has emphasized the danger of a continued policy which discourages rather than encourages new crude oil production. The Petroleum Administrator has repeatedly recommended to the Office of Price Administration that the crude prices be increased.

The Japs planned a rubber shortage for this nation. The effect of a continued domestic policy which creates a crude oil and gasoline shortage, can be just as devastating to our people and the war effort as though it had been planned by the Japs.

Of what avail is it to the American public to save a cent or two a gallon on gasoline, is such saving results in on gasoline?

**Rationing Alone No Remedy For Scarcity**  
England has been experiencing a bad coal strike. In our own country the Federal director of coal mines estimates that strikes have cost the United States 25,000 tons of coal this year. It now develops that coal must be shipped for use of the Army in keeping Italian utilities, ships, locomotives, factories and other facilities going.

In the meantime, the question of how cold American homes will be this winter will depend on weather, with which the government nor labor unions have any influence.

A discussion is now underway as to whether the work week in companies shall be extended from 42 to 48 hours, which would involve more pay and a little higher price for coal. When the work was extended from 42 to 48 hours, price increases of 14 cents a ton were approved which, according to simple arithmetic, meant \$1.40 price increase for ten tons of coal. The average family would be glad to pay another 14 cents a ton price increase to offset wage increases, if by so doing homes could be kept warm this winter.

It would be like the case of rationing and price ceilings of commodities is virtually nil if the result of such policies is scarcities which denude the market of supplies. Eventually this nation must adopt a program that encourages bountiful production as a sound curb on inflation which is caused by scarcities.

**Clearing The Track**  
It has remained for Joseph B. Eastman, Director of the Office of Defense Transportation for the government, to recognize officially the fact that a lot of our manpower shortage is the result of rules and regulations that were often devised for the specific purpose of making two jobs where one was sufficient.

Unless vigorous remedies are undertaken at once, the country is headed for a crisis in railroad manpower, says Mr. Eastman. In a 13-point program to forestall such a crisis, he recommends as an important essential the suspension for the duration in certain circumstances of full crew laws and engine mileage limitations.

Mr. Eastman recognizes that the railroads have gone the limit in expanding service under many restrictions, and that the time has come to remove any

"OF COURSE, WILBUR, MEAT IS SCARCE IN WARTIME, BUT I THINK YOU ARE OVERDOING IT JUST A BIT."

artificial barriers which block the fullest use of available manpower and equipment in this critical period.

**Town And Farm In Wartime**

Soldiers' dependents must fill out and return a new, one-sheet dependency certificate to benefit by the new rates provided by recent service members' allowances legislation, the War Department announced. All dependents now receiving family allowances are being sent copies of the new form. These should be filled out, witnessed, and returned to the Office of Dependency Benefits as soon as practicable to avoid possible discontinuance of allowances. Until new accounts can be set up, dependents now receiving family allowances will continue to receive their checks in the old amounts. After an account is converted, any sums accrued as a result of an increase in allowances will be included in the first check. The conversion from old to new accounts will take several months.

**Mail Christmas Cards Now**  
Christmas cards to soldiers overseas should be mailed at once, the War Department says. They must be sent in sealed envelopes as first class mail. The Christmas cards mailed now will reach the most remote APO's by December 25, according to the Army Postal Service.

**Predict Ample Coffee For Duration**  
"Coffee supplies in the U. S. should remain ample for the duration," according to George F. Thierbach, president of the National Coffee Association. Imports into the U. S. this year were in excess of any previous year except 1911. Recently Chester Bowles, general manager of OPA, said "there is not the slightest idea of rationing coffee again."

**Food Administrator Is Directed**  
To put into effect a system of allocation of live cattle to slaughterers and feeders to maintain "equitable distribution of available supplies."

**Penalty Butter Prices Down**  
Reduction of consumer prices for peanut butter from 33.1 cents to about 29.5 cents per pound, effective November 1, was recently announced by WFA and OPA. The reduction is part of the wartime program to increase use of peanuts in making peanut butter and increase consumption of easily produced foods of high protein content.

**30 Days Notice on Stamp 18**  
The public will be given 30 days' notice, should it become necessary to terminate Stamp 18. This announcement was made recently by OPA. "Stamp 18" was a buying restriction that the validity period of the Stamp 18 might be extended with only 24 hours' notice to consumers.

**Set Price Range on Cattle**  
The allowable range of prices for which each grade of live cattle can be sold to slaughterers has been set by Judge Fred M. Vinson, director of the Office of Economic Stabilization. Within each grade price may fluctuate \$1. Price ranges per hundred weight for various grades at Chicago are: choice, \$15 to \$16; good, \$12.5 to \$15.25; medium, \$12 to \$13; common, \$10 to \$11; cutter and canner and bologna, \$7.45 to \$8.45. The Price Administrator and the War Food Administrator have to determine and publish prices at other points in line with Chicago prices. As soon as practicable, the War

**THE BEER OF FRIENDSHIP!**

Conditions being at this are, there are times when your dealer will be unable to fill your order for JAX. There are many reasons for this, including a tremendous popular demand for this fine beer. All of them are good reasons and most of them are related to war restrictions.

However, most of the time you'll find that your dealer does have JAX. We're trying very hard to keep everyone supplied.

If you find that you can't get JAX today, ask again tomorrow. And remember to ask for JAX by name because you can't buy better beer at any price.

## TO OUR DEALERS

It makes us unhappy when you lose a sale because we have lost a sale, too. However, we're making every effort to keep supplies fairly distributed and to serve you as often as restrictions permit. It's the war—and we've all got to pull together to win it!

reading the paper and keeping up with developments as they happen in the Glades. It goes without saying that I sure wish I was back there.

"Since leaving Belle Glade I have seen more of the country than I thought I would for not being in any longer than I have. After arriving at Camp Blending on July 16th, I was sent to Camp Lee, Virginia, where I took my basic training. Suddenly after six weeks and with no warning I was transferred to Huntsville, Texas, where I am going to the Army Administration School located here at the Sam Houston State Teachers College. It is really not like being in the Army as we go to school like regular students and have quite a number of privileges that do not exist at Camps, however all good things come to an end and I am leaving here in about 10 days at the conclusion of the course. Rumor has it that I have a good chance to get Christmas dinner in London, but will see you folks there before I leave.

"Best regards to everyone."
